RESTORE & RENEW FACIAL

This rejuvenating facial begins with a gentle cleanse and exfoliation, preparing your skin for optimal nutrient absorption. The treatment utilizes NuFace®, a microcurrent device that delivers low-level electrical currents to stimulate facial muscles, enhancing firmness and promoting a more sculpted appearance. A luxurious Knesko collagen mask is then applied, deeply hydrating your skin and infusing it with essential nutrients to improve elasticity and plumpness. The result is a visibly lifted, contoured complexion, radiating with a healthy glow.
